Embryo Import & Export EU Approved Embryo Transfer & Flushing

Conditions of Sale – Keys to Success IV – Charolais Edition – Foundations of the Future Sale August 2025

Pregnant Recipients

Recipients are within TB test for immediate movement within ROI.

NI Purchasers - please note:

- * All pregnant recipients are export tested for movement to NI.
- * All logistics associated with collection & export are the responsibility of the purchaser.

Additional details:

- * All pregnant recipients are vaccinated for Leptospirosis and BVD and tested negative for Neospora.
- * Recipients will be scanned in the presence of the purchaser at collection. At this point, pregnancy risk transfers from Daire Markham Ltd to the purchaser.
- * Where foetal gender has been predicted via ultrasound scanning, results are provided as the best available prediction to support management decisions. This does not constitute a warranty, though it carries a high level of reliability.

Embryo Lots

- * All embryo lots are NI, UK & EU export eligible, with transport and logistics costs to be borne by the purchaser.
- * Each lot consists of 2 Grade 1 embryos which are stored with VetEmbryos.ie, Ballinlough, Co. Roscommon, Rep. of Ireland.
- * Bid price is per embryo.

FOREWORD

Welcome to Keys to Success IV – Charolais Edition: Foundations of the Future.

While this is our fourth Keys to Success sale, it marks the first dedicated production sale from the AJ's Charolais herd — a focused breeding programme built around a simple goal: combining the right bloodlines with real performance. Every heifer, recipient, and embryo in this catalogue has been selected to reflect that purpose.

Only through the use of embryo transfer have we been able to accelerate our genetic progress and develop cow families with depth, consistency, and long-term potential. Through my work with VetEmbryos.ie, we've had the tools, access, and confidence to make that possible — and to offer genetics here today that may not otherwise be available.

I'm especially grateful to those who shared sound advice and encouragement when I first started breeding Charolais cattle. And a sincere thank you to my wife Laura and our children — their support at home is what allows me the time to focus on breeding and to carry out the embryo transfer work that underpins this programme.

Thank you for taking the time to view the catalogue, and best of luck with your bidding.

Kind Regards,
Daire Markham

Sale Held online via Mid Tipp Mart on Marteye
Register to bid: Phone 0504 21499
Lots Close: from 7pm Mon August 25th

Bostonia Tina is an exceptional foundation opportunity for breeders. Sired by Major, she carries one copy of the F94L myostatin gene. Her dam, Bostonia Lilypad (Dingle Hofmeister x Liscally Blossom), stems from a line of deep-bodied, milky females with excellent feet. Purchased at the 2024 Bostonia Sale, she has flushed successfully and is confirmed carrying a female pregnancy to Infidele (AI date: 26th May), making her an elite future donor prospect.

4-7 DERRYGIFF LIZ

DONOR DAM

Derrygiff Liz represents one of the most proven female lines in the Charolais breed. A direct granddaughter of the legendary Ashleigh Pearl and sired by Burradon Talisman — a renowned breeder of exceptional females — she carries the influential CF52 cross that delivers power, consistency and style time and time again. As a valuable QQ myostatin carrier, Liz brings sought-after genetic balance and versatility. Her track record as a donor is already clear, having bred three exceptional heifers to date that reflect her depth of quality. Investing in embryos from Liz is an opportunity to secure a place in this elite and proven bloodline.

DONOR DAM

Goldstar Ukraine is a standout Charolais female, combining frame, fertility, and show ring refinement. Sired by Othello, she is a daughter of the legendary Goldstar Nightengale; a Tombapik-bred cow from the renowned Goldstar Falkland line. Nightengale has consistently produced top-tier heifers, including Pearle ET and Prada ET, each commanding over €7,400 at Tullamore sales. Ukraine has inherited her dam's power and correctness, delivering progeny with length, depth, and maternal reliability. Backed by proven genetics and performance, she offers both pedigree excellence and commercial strength — a true asset to any herd.

26 DERRYGIFF LIZ X REGLISSE

2 X GRADE 1 EMBRYOS

DONOR DAM: DERRYGIFF LIZ

DONOR SIRE: REGLISSE

Derrygiff Liz, a QQ daughter of the great Ashleigh Pearl, continues to deliver exceptional consistency and style. This mating with the FF myostatin sire Reglisse — a French bull enjoying strong success on the show circuit this year — offers an ideal blend of Irish and French genetics. A balanced combination of maternal strength, muscle, and presence with serious appeal for pedigree-focused breeders.

SAWICKA VICKY

DONOR SIRE: DOONALLY NEW CF52

Sawicka Vicky (ET) x Doonally New (CF52)

From the consistent, quality-focused Sawicka herd, Vicky is a stylish Pirate daughter successfully shown as a calf. Her potential was obvious early and she's maturing into the young female we expected. Mated to CF52 — the breed's most proven sire — this delivers the famed Pirate x 52 cross. A unique offering combining style, muscling, and proven pedigree power.
